ERP KINGSMAN

Comprehensive Vehicle Inventory Management

Developed a centralized inventory system to manage the complete vehicle lifecycle, including stock monitoring, arrival inspection, quality checks, reservation, readiness, sales completion, and real-time vehicle status tracking.

Lead & Sales Pipeline Management

Built a lead management module that streamlines customer inquiries from multiple sources, tracks follow-up activities, monitors sales progress, and improves conversion rates through structured sales workflows.

Deal & Customer Information Management

Implemented a deal management system that stores customer profiles, vehicle specifications, pricing details, quotations, accessories, payment information, and supporting documents within a single platform for efficient sales operations.

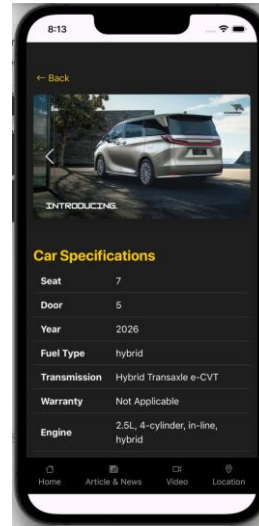

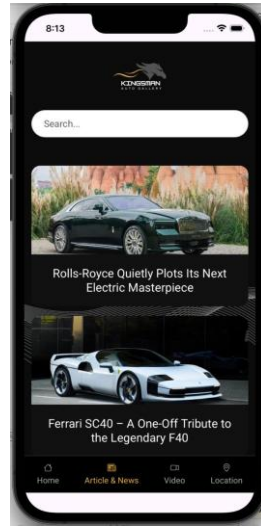

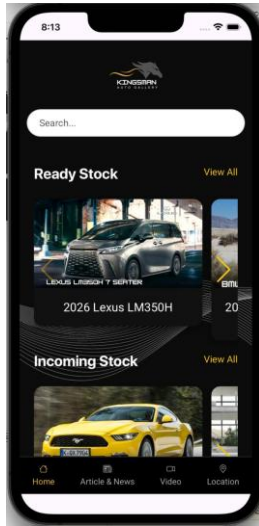

Commission & Financial Tracking

Designed commission management features that automatically calculate sales incentives, monitor payment statuses, generate commission summaries, and provide transparent reporting for sales teams and management.

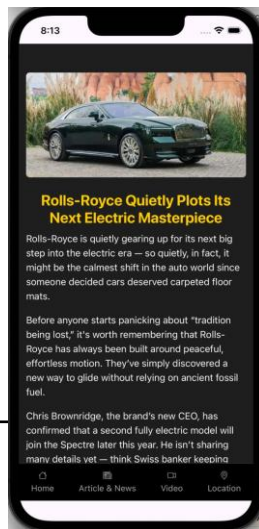

Business Dashboard & Operational Reporting

Created interactive dashboards with real-time KPIs, including vehicle stock, open leads, sales performance, workflow progress, and operational reports, enabling management to make data-driven business decisions efficiently.

KINGSMAN AUTO GALLERY

KINGSMAN AUTO GALLERY

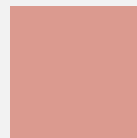

Developed a dedicated Android mobile application for Kingsman Auto to help users easily search and view available car stock.

The application is integrated with inventory data, allowing vehicle information to be displayed in real time and accurately.

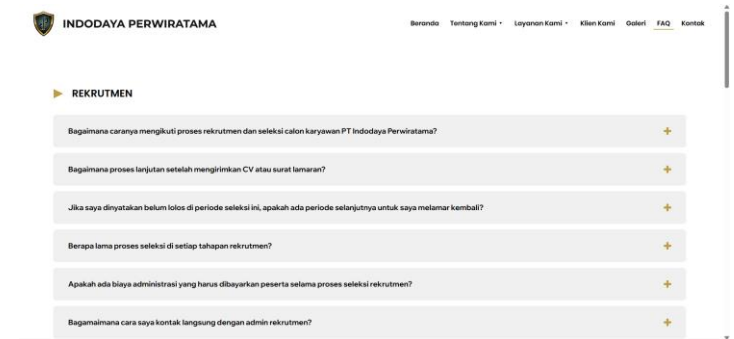

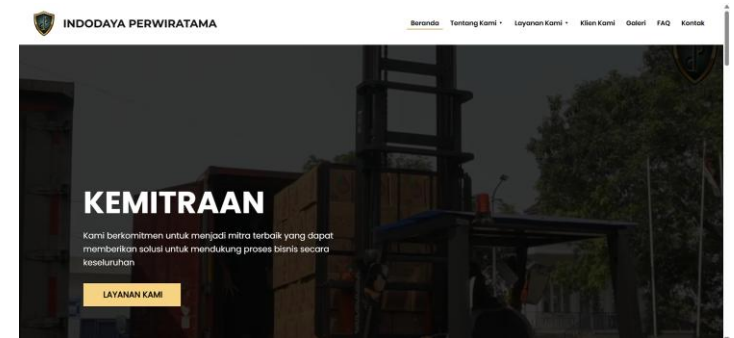

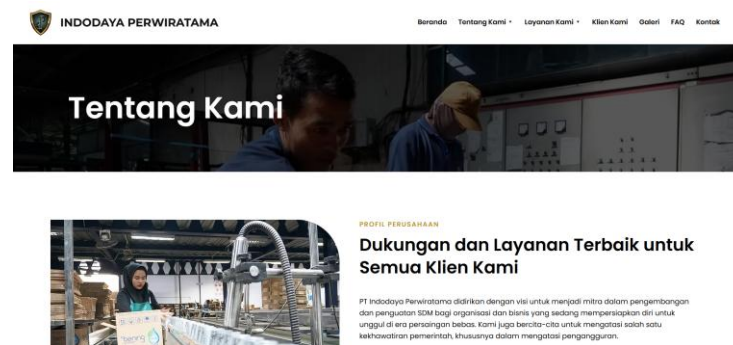

Provided a user-friendly and responsive interface to improve the user experience when browsing products.

The application was published on the Google Play Store and App Store as a digital platform to support sales and promotion.

INDODAYA PERWIRATAMA

INDODAYA PERWIRATAMA

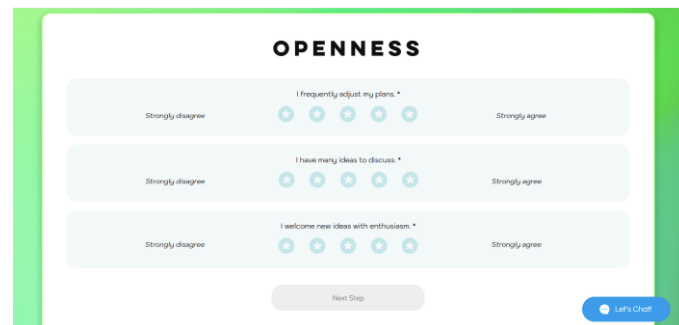

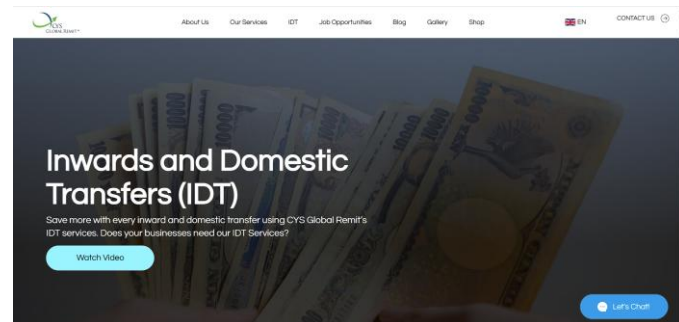

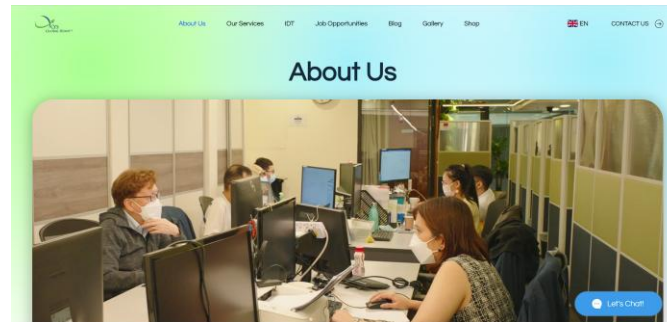

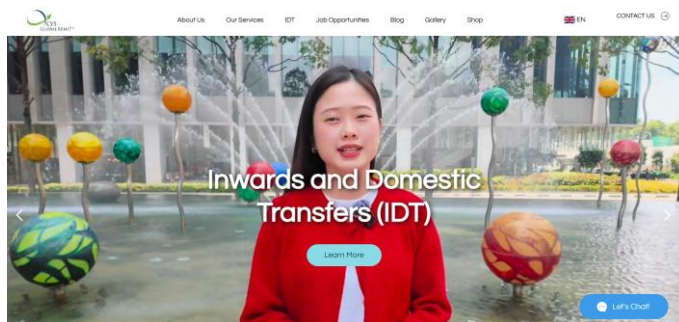

INDODAYA PERWIRATAMA

Indodaya Website is a company profile website development project that I worked on to support the digital needs of PT Indodaya, a company engaged in manpower and outsourcing services. This website serves as the company's official information platform as well as a medium to increase credibility and build trust with potential clients.

Through this company profile website, PT Indodaya is expected to expand its marketing reach, strengthen its corporate branding, and support business collaboration processes in the manpower and outsourcing industry.

In this project, I implemented a professional, informative, and easily accessible website that presents the company profile. The website content includes information about manpower and outsourcing services, the company's vision and mission, service advantages, and company contact information.

The Indodaya website was designed with a modern, responsive, and user-friendly interface to ensure optimal access across various devices. The page structure was arranged systematically to help visitors easily understand the services offered and communicate with the company.

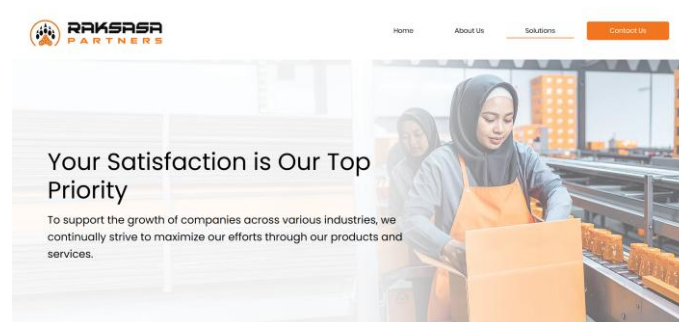

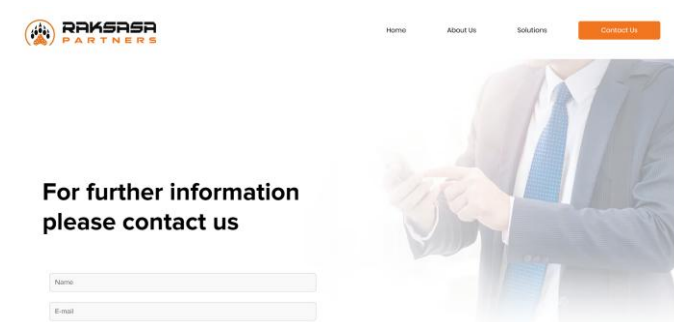

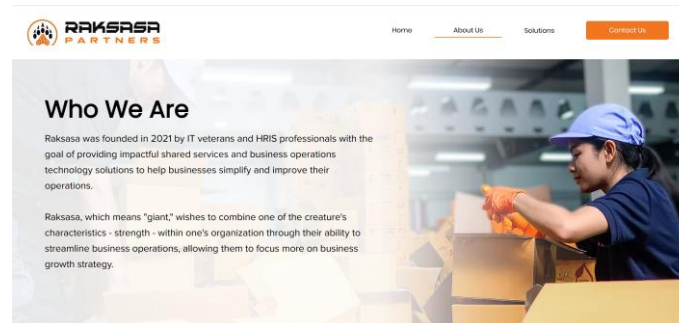

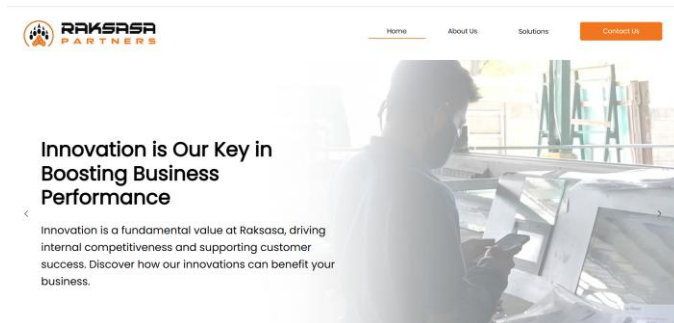

CYS GLOBAL
REMIT

CYS GLOBAL REMIT

- Implemented the development of a company website that functions not only as a company profile, but also includes a Job Opportunities feature.
- Provided a Self Assessment Hire feature, consisting of a candidate assessment form with specific questions, where the results are collected and managed by the HR department.
- Displayed dynamic statistical data that can be updated daily by the admin, such as transaction volume, accounts remitted, active FI partners, and countries involved.
- The website was designed with a modern, responsive, and integrated interface to support the company's operational and recruitment needs.

RAKSASA PARTNERS

RAKSASA PARTNERS

Implemented the development of a company profile website to support the digital needs of Raksasa Partners.

Presented the company profile and service information in a professional and structured manner.

Used a modern, responsive, and user-friendly design across various devices.

The website functions as a platform for branding, promotion, and improving the company's credibility.
